Static digital displays and videos

All levels

Video mural – Main hallway

Achieve next-level visibility!

The Québec City Convention Centre's main hallway is a high-traffic area for visitors and attendees alike. Use the giant video wall for custom visuals and videos and achieve maximum visibility for your event.

- A large 126 ft² video mural (consisting of eighteen 46 in monitors)
- Video or static ads

Your visual will alternate with those of several other Québec City Convention Centre advertising partners. For exclusive use, check with your event coordinator for options and pricing.
